

Here's How To Say "Yes" To A Guaranteed Way To Help Prepare Your Teen For Life's Challenges and Successes – and To Offer Your Teen A Critical Edge In A Chaotic World

Spending one weekend with HeroPath, regularly helps teens:

- ✚ Stop being inhibited by other people's negative comments and opinions
- ✚ Have the confidence to do things the way the most successful people do
- ✚ Be able to perform their best under pressure (exams, social, etc)
- ✚ Make decisions that ensure they stay true to themselves
- ✚ Stay positively oriented, even when the world around them isn't
- ✚ Develop deeper, more fulfilling relationships
- ✚ Find careers that excite them

This program is especially helpful for teens who:

- Get discouraged and distracted by other's negative comments
- Are in situations where the right or best thing to do isn't going to be easy to do
- Have dreams of things they want to do with their lives that won't be easy to accomplish
- Have a situation upcoming where they need to be able to focus and perform at their best
- Lack confidence in an area of life where they will most need it
- Have social challenges that frustrate them and are hard to resolve

REGISTRATION INFORMATION

THE WORKSHOP INVESTMENT OPTIONS: OPTION ONE Cont'd

The cost is based on an extremely limited number of teens attending (maximum of 25) so that each teen attending is assured of being given the attention required to ensure they have a most personalized experience of the learning. All adults helping to facilitate are thoroughly trained and licensed Facilitators of the MythoSelf® Process that is at the core of the program. Each teen shall also be able to make up to 1 hour contact time per month from a MythoSelf® licensed facilitator recognized by **HeroPath** for a period of SIX months following the workshop regarding any questions that may arise or advice wanted. There is also a facebook group where teens who have attended the workshop are welcome to subscribe and share experiences related to what they learn.

This fee is a fraction of the fee it would be to work privately with one of our trainers.

For and example Jeffrey Leiken, our Master Trainer commands fees ranging from £1,600-2,000 per day for his training and mentoring and his schedule is so full we have to book weekend dates with him a year in advance. His dedication to helping teens learn this material and integrate it into their lives leads him to almost donate his time to do this program. This is a rare opportunity to spend exclusive time with such an innovative thinker and talented trainer. He will have your teen awed with possibilities and open to new ideas, taking responsibility for his or her life like never before, and doing this through captivating stories, spot-on relevant examples and sophisticated skills that work.

The model of work is so exclusive that much of it won't be learnt elsewhere.

OPTION TWO:

For those ready to make to decide and register and pay in full 14 days prior to the first day of the workshop the cost of the Workshop for **OPTION TWO is **£357.00** that is **£133.00** less than the full cost of Option One. For **each** option there is a deposit of **£125.00** required upon registration and for **OPTION TWO** the balance for full payment or payment terms is to be received or agreed respectively prior to the first day of the Workshop.**

AND if you bring a friend you will receive a £30.00 reduction taken off the overall price for two.

For Parents and Guardians:

1. The Workshop will adhere to the relevant UK Child Protection Policy requirements. There will be an expectation throughout that behaviour of the participants will be exemplary. There will be trainers/facilitators assigned to take supervisory responsibility for designated participants throughout the weekend and there will be trainers/facilitators resident to attend to any residential participants that are not being accompanied by the parent or guardian. The responsibility for any participant remaining within the building or sleeping areas as directed by the trainers/facilitators is with the participant and his/her parent/guardian.
2. The instruction of the Workshop is for the most part done verbally. There are aspects of the work that include education in non-verbal communication. In particular those attending will learn how the way they use and orient their mind and body effects their state and their moods. Thus there will be moments when the arms, legs, head and non-sensitive areas of the upper torso will be touched or moved as part of the learning. This will always be done publicly, and in an appropriate and respectful manner with consent of the participants.
